 - (iii) Team with fewest runs against in all playoff game (if applicable).

(iv) Coin toss.

(b) Should a playoff game be tied at the end of 7 innings the tiebreaker procedure as per the Slo-Pitch National Rules Book will govern. The offensive (at bat) team shall begin its half inning with one out and with the player whose name precede the next legal batter in the batting order starting as a runner at second base. Regular substitution rules will apply to this runner.

6. EXPENSES

(a) All officials' expenses will be divided equally among the participating schools.

(b) All regular season preliminary and quarter final games will have one umpire.

(c) All semi-final and final games will have two umpires.

7. RULES AND OFFICIALS

(a) The current Slo-Pitch National Rules Book will govern unless otherwise specified in the playing regulations.

(b) Park ground rules will be agreed upon by the coaches and umpire before the game.

(c) Teams must stay off the infield until the bases are set up.

(d) The distance between the bases will be 65 feet, measured from the back of the plate to the far end of the base.

(e) The distance between the pitching rubber (or marked line) and home plate is between 46-50 feet at the discretion of the pitcher, measured from the back of the plate. The rubber mat (2x3) to be placed on top of home plate.

(f) Distance between the back of home plate to center of 2nd base is 91 feet - 11 inches.

(g) A commitment line must be drawn 20 feet from home plate between third base and the back of home plate. If a base runner passes the commitment line after rounding third base, she cannot cross back over it or else she will be called out. Such a base runner is committed to running across the scoring line which is drawn parallel to the commitment line, at the front of the pitching mat, on the third base side. The base runner must cross the scoring line without touching home plate or the catcher, in order to score a run for her team. To be safe at home, one foot must simply make contact with the scoring line. The base runner will be forced out at home plate if a fielding player touches the plate, while in control of the ball, before the runner has touched the scoring line, and after the runner has passed the commitment line.

Note: The home team is responsible for making sure the commitment line and the scoring line are obvious throughout the game.

(h) A foul ball with two (2) strikes on the batter will result in an out.

- (i) No tagging of runners is permitted any time between the commitment line and the scoring line. The rubber mat must be tagged by the player in possession of the ball for the runner to be called out.
- (j) The pitched ball must follow an arc of 6 feet to 12 feet. A 'ball' will be called by the umpire if the pitch is not within this range. A strike is called when it follows an arc of 6 feet to 12 feet and come in contact with any part of the plate.
- (k) A base runner is out if she fails to keep contact with the base to which she is entitled, until the batter has made contact with the pitched ball.
- (l) If a player must leave the game because of injury (umpire must agree that an injury has occurred) a substitute from the bench will be used. If no substitutes are available, the team may proceed with the game provided they still have at least 9 players in the line-up. The spot in the batting order where the injured player used to hit will not be declared as an out when her spot comes up to bat again. This rule applies to teams who begin with 10 or more girls in the line-up.
- (m) If a team shows up to the park with only 9 players, they may then field a line-up of 9 players. A 10th, 11th and 12th player may be added if the team has not yet batted once through their batting cycle. Such players may not be inserted into the line-up ahead of anyone who has already batted. The opposition and the umpire must be informed of any such roster changes during the game. Once a team begins its second batting cycle, no additions may be made to the line-up, but the team may choose to make substitutions. If the team starts with 9 players, the line-up sheet is made with 9 players and no out is counted where the 10th player would normally bat.
- (n) Substitutions will be allowed from the player's bench. A player may enter the game for a player already in the line-up and must take the same batting position of the removed player. The removed player may re-enter for the substitute player into her former position. The substitute player may not be used again in the same game.
- (o) Any players who begin the game as designated hitters (i.e., they bat, but do not field) may be inserted into a field position at any time for one of the present fielders. Batting positions are not changed in such an event.
- (p) Infield Fly is a fairly batted fly ball (not a line drive) which can be caught by an infielder with ordinary effort when first and second, or when first, second and third bases are occupied with less than two out. Any defensive player, who positions herself within the infield area, will be considered an infielder for the purpose of this rule.

Note: If a fairly batted ball is to be declared an infield fly the umpire shall call: 'INFIELD FLY, IF FAIR, BATTER IS OUT' for the benefit of the runners. Failure to make the call does not preclude the batted ball from being an infield fly. The ball is alive and if the runners advance they do so at their own risk and are in jeopardy if the ball is caught. The ruling is the same as any other caught or dropped fly ball. A foul ball is not an infield fly and if the ball falls untouched to the ground in fair or foul territory prior to first or third base and subsequently rolls into foul territory, it is just a foul ball.

- (q) Courtesy runners may be used (provided the batter has safely reached base) a maximum of 3 times per game. When courtesy runners are used, the same runner cannot be used twice. Only players listed on the roster are eligible to be courtesy runners and a courtesy runner can be used for courtesy runner. Note: The use of a courtesy runner does not constitute a substitution.
- (r) Pitcher's legal feet position:
 - (i) Preliminary to pitching, the pitcher shall take a position with her pivot foot firmly on the ground within the confines of the pitching zone. The pivot foot must remain in constant contact within the pitching zone, until the release of the ball.
 - (ii) The other foot (free foot) has no restrictions on positions and may be placed on, in front of, to the rear of, or to the side of the pitching zone. After taking this initial position, the pitcher may only take one step with the free foot in a direction of her choice, provided that it is taken prior to, simultaneously with and during the actions of delivering the pitched ball.
 - (iii) After the release of the pitch, which action may include a step forward towards the batter, the pitcher may not continue to move forward, other than the normal forward momentum resultant from the pitch to the batter.

- (a) ROPSSAA gold medallions are to be awarded to the members of the tier one championship team (maximum 22 per team).

For all indoor sports, athletes must move to the designated locker room or change area to change their clothing.

10. SCORING

If at the end of the 5th or 6th inning, there is a run differential of 12 runs, the game will be called, and the team that is leading will be declared the winner. If the team that bats at the bottom of the 5th, 6th or 7th inning assumes a 12 run lead before the end of the inning, the game will be called immediately.
