

Understanding the Sections of the ROPSSAA Transfer and Eligibility Policy

IN ALL SECTIONS WHEN CONSIDERING AN APPEAL, IT IS EXPECTED THAT A STUDENT WILL MOVE TO THE CLOSEST SCHOOL OF THE SCHOOL SYSTEM THEY HAVE CHOSEN TO ATTEND.

Section a(i) change of residence

- family moves and student moves with them at the same time to a new permanent residence; student attends closest school or designated school of the school system they have chosen
- student may remain in the previous school until the end of the semester in which the parents move or until the end of the school year in a non-semestered traditional school and still apply under this section
- **students moving on their own, or to live with a different 'guardian' or to a different school system not closer to their home may not apply under this section**
- documentation must include proof of a new permanent residence and **proof of move from the previous residence**, see Note 8 of the policy
- students whose move in date is in the future may not apply under this category until the move is finalized
- lease agreements are not acceptable proof of address

Section a(ii) transfer from outside North America

- students from outside Canada and the United States may apply under this section even though they may not be accompanied by their parents
- out-of-province students and students from the United States who move here without their parents may not apply under this section
- students applying under this section may not have previously lived in North America
- **Proof of address is not required if the student can provide documentation confirming they have been processed by the school board's assessment center.**

Section a(iii) School Closures and New Schools

- when a school closes, students are expected to go to the school designated by the Board in the same system unless there is a school significantly closer to his/her home, these students may apply under this section
- when new schools open, students within the catchment area and in that school system are not considered transfers; students outside the catchment area who decide to move to the new school are considered transfers and must apply under another appropriate section
- it is critical that written information is provided to all schools affected by the opening of a new school or the closure of a school in the spring of the year before the opening or closing occurs so that students make informed decisions if they are considering a transfer
- students in the catchment area of a new school who choose not to move in the year the school opens but then move in subsequent years to the new school are then transfers and must appeal under an appropriate section
- must stay within the board

Note: Students forced to change schools because of school boundary changes are considered involuntary transfers, a list of names and the name of the school the student involuntary transferred from to be submitted (the list to be signed by the school principal or designate) for inclusion on the ROPSSAA approved list

Section b(i) – did not participate in any sports in the previous 12 months

- transfer students who did not participate in any sports during the twelve months PRIOR to transfer may apply under this section
- 'participation' includes any type of interschool activity such as scrimmages between two schools, exhibition games, invitational events, non-league games etc.
- sending school to verify non-participation (you may provide a form for the previous school to check off sports played) an email or letter from the sending school are also accepted forms of verification

note: grade 9 students may not apply under this section

note: students who transfer from one school to another and then back to the original school may not apply under this section (see b(iii))

Section b(ii) – Restricted Eligibility

- students accept their ineligibility status for those sports played during the past 12 months but wish to be granted eligibility for those sports not played
- verify with sending school re: sports played (you may provide a form for the previous school to check off sports played) an email or letter from the sending school are also accepted forms of verification

Section c(i) – Directed attendance

Be Aware of the Notes within the Policy:

- comparison of schools will not factor into the decision-making
- the notes in the policy are important and are to be used as reference
- courses presented with a different approach at different schools are not a consideration for transfer eligibility

Additional Notes

- students enrolled in regional programs who withdraw themselves from the program or are asked to withdraw are not eligible unless they apply for and meet one of the sections of the transfer policy
- a high skills major program transfer is not applicable to any of the categories of the transfer policy
- review the forms carefully to ensure all dates are accounted for
- make sure date into grade 9 and date into previous high school (not previous school but what we would consider high school) match
